

## Emotional Intelligence in Leadership

**127 %**

In most complex jobs, a top performer is 127 % more productive than an average performer

**2/3**

Research conducted in 200 companies worldwide suggests that 2/3 of this difference is due to emotional intelligence and only 1/3 due to technical skills and cognitive ability

**4/5**

In top leadership positions

Over 4/5 of the difference is due to emotional competence
